FIND YOUR IMPULSE ON YOUR WAY TO HARMONY

LADIES AND GENTLEMEN,

I have the great honour of presenting to you unique effects of combining the advanced technology of production of pattern glass with top-quality design, in line with the world's current trends in design. Making use of a whole array of visual styles and arts, such as classic, modern, modernist, industrial design, we present pattern glass classified according to the design, functionality, and ergonomics occurring in the interior design.

It is our pleasure to present to you pattern glass, which - with our full awareness and our best knowledge in the field of design - we have divided into the following groups in compliance with the latest global trends:

MODERN - glass with modern, simple, geometrical patterns, reflecting the way of thinking and aesthetics.

VINTAGE - glass with a good design never gets old. Interesting and functional patterns, which with the passing time increase their value.

MASTER - high-end line of glass, rich in styles and sophisticated in textures.

CLASSIC - a family of glass with elegant, soft, classic patterns - unique tailor-made interiors.

INDUSTRIAL - looks and character, combination of glass with a delicate metal mesh - timeless design and exceptional interior design ideas.

We are convinced that everyone will choose a product satisfying their unique, individual sense of aesthetics and tastes. We truly believe that going through inspirations presented according to the trends MODERN, VINTAGE, CLASSIC, MASTER, INDUSTRIAL you will find your impulse on your way to harmony, unique designs, and your dreams come true.

LET'S FIND AN IMPULSE ON OUR WAY TO HARMONY
TEAM OF SAINT-GOBAIN BUILDING GLASS POLAND

TREND

MODERN

EACH GENERATION MAKES ITS OWN CONTRIBUTION TO STYLE, FORM, AND FUNCTION. MODERN INDIVIDUALISM IN ITS GLASS VERSION IS A KEY TO CREATING EXCEPTIONAL INTERIOR DESIGNS.

TREND

VINTAGE

GOOD DESIGN NEVER GETS OLD. ON THE CONTRARY - ITS VALUE INCREASES WITH THE PASSING TIME. GLASS PANELS WITH TRADITION IN MODERN INTERIOR DESIGN.

TREND

MASTER

HIGH-END STYLE OF PATTERN GLASS PROVIDING DISCRETE PRIVACY COMBINED WITH THE HARMONY OF DELICATE EFFECTS OF DISPERSED LIGHT.

TREND

CLASSIC

CLASSIC DESIGN WHERE THE SHAPE AND FORM ARE THE MOST IMPORTANT. STATIC, FRUGAL PATTERNS APPLIED ON GLASS PANELS WILL PROVIDE YOUR SPACES WITH THE PEACEFUL APPEARANCE YOU EXPECT.

TREND

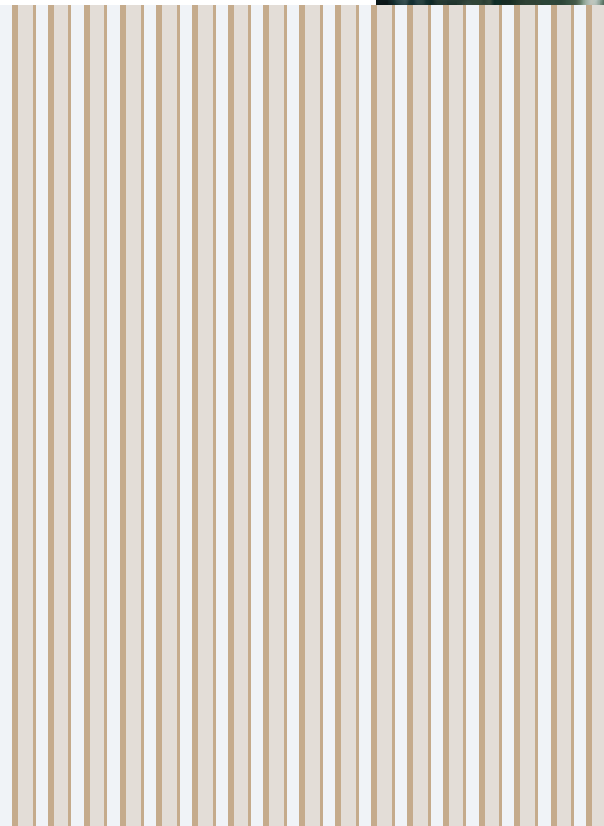

INDUSTRIAL

ONCE A MUST, TODAY - A SYNONYM OF LUXURY, MINIMALISM, FREEDOM. APPRECIATE YOUR SPACE. DESIGN IT SO THAT PARTITIONS CORRESPOND TO THE NATURE OF THE INDUSTRIAL STYLE.

TREND **MODERN**

ESTRIADO

Arrange your space and create your own world the way you like it. By taking advantage of the glass form of the MODERN trend you will highlight the individualism of your interiors following the latest achievements of the world's design.

APPLICATION

The trend of INDUSTRIAL pattern glass combines aesthetic values with safety of intensive use. The solution proves effective in commercial premises with big numbers of users, e.g. in restaurants, passageways, industrial premises, as well as in modern residential spaces, e.g. in loft apartments.

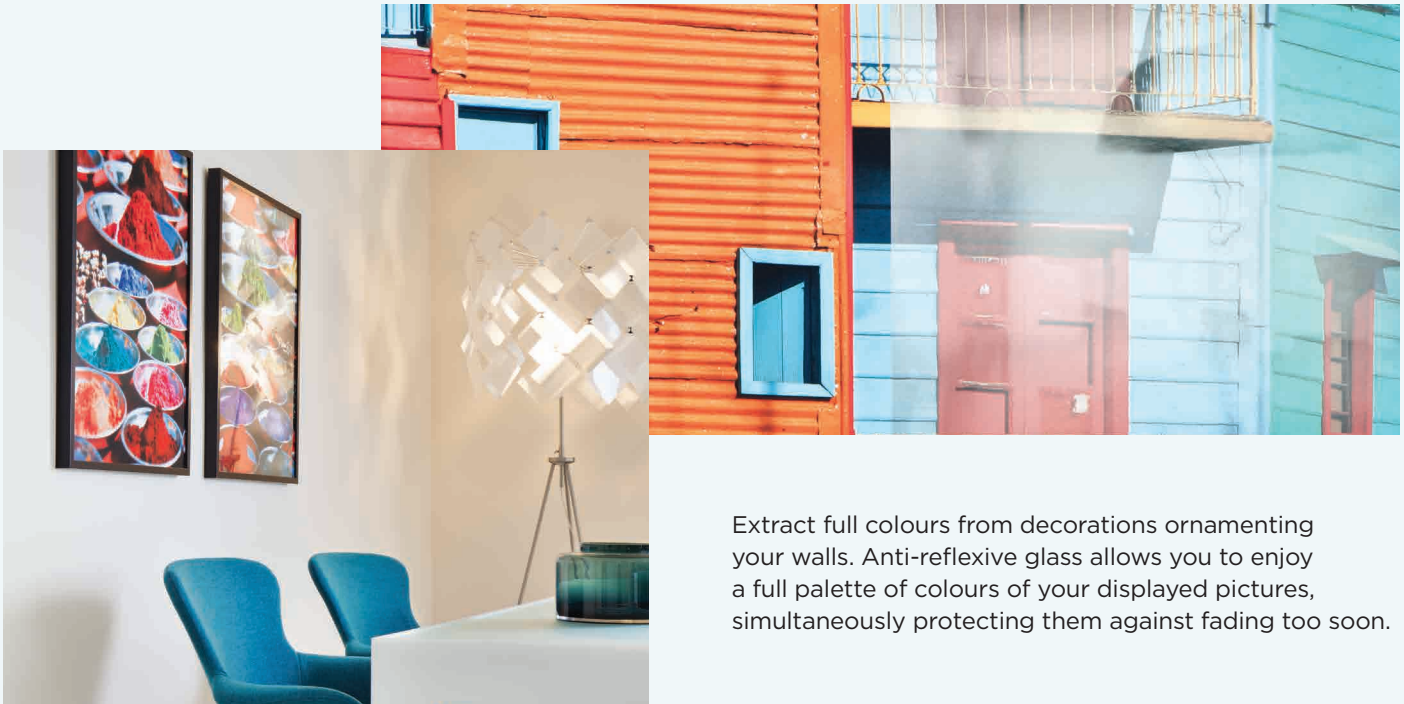

PICTO

ANTI-REFLEXIVE GLASS

PICTO

Thickness (mm)	Dimensions (mm)
2	1560 x 1270

Extract full colours from decorations ornamenting your walls. Anti-reflexive glass allows you to enjoy a full palette of colours of your displayed pictures, simultaneously protecting them against fading too soon.

MASTERSOFT COLOR-IT

VARNISHED GLASS

MASTERSOFT
COLOR-IT

Thickness (mm)	Dimensions (mm)
4	3210 x 2000
6	3210 x 2000

Varnished glass panels, combining the boldness of colour with deep hues and elegance of glass. A perfect solution in interiors, as an element of furniture, doors, or wall panels.

DECORGLASS MASTERGLASS

AESTHETIC VALUES

Pattern glass transmits light, dispersing it ever so subtly, and it blends seamlessly with every style of interior design, the classic as well as the modern one.

LIGHT AND PRIVACY

Pattern glass divides the space, simultaneously adding light and perspective.

Thanks to these properties it allows:

- Optical increase of residential space by means of pleasantly dispersed light;
- Creating an intimate, homely atmosphere thanks to separating your interiors from prying eyes from the outside.

APPLICATION EXAMPLES

- partition and sliding walls;
- glass and glazed doors;
- windows;
- shower cubicles and bath screens;
- furniture (desks, tables, counters, shelves);
- balustrades for internal and external applications;
- small urban architecture.

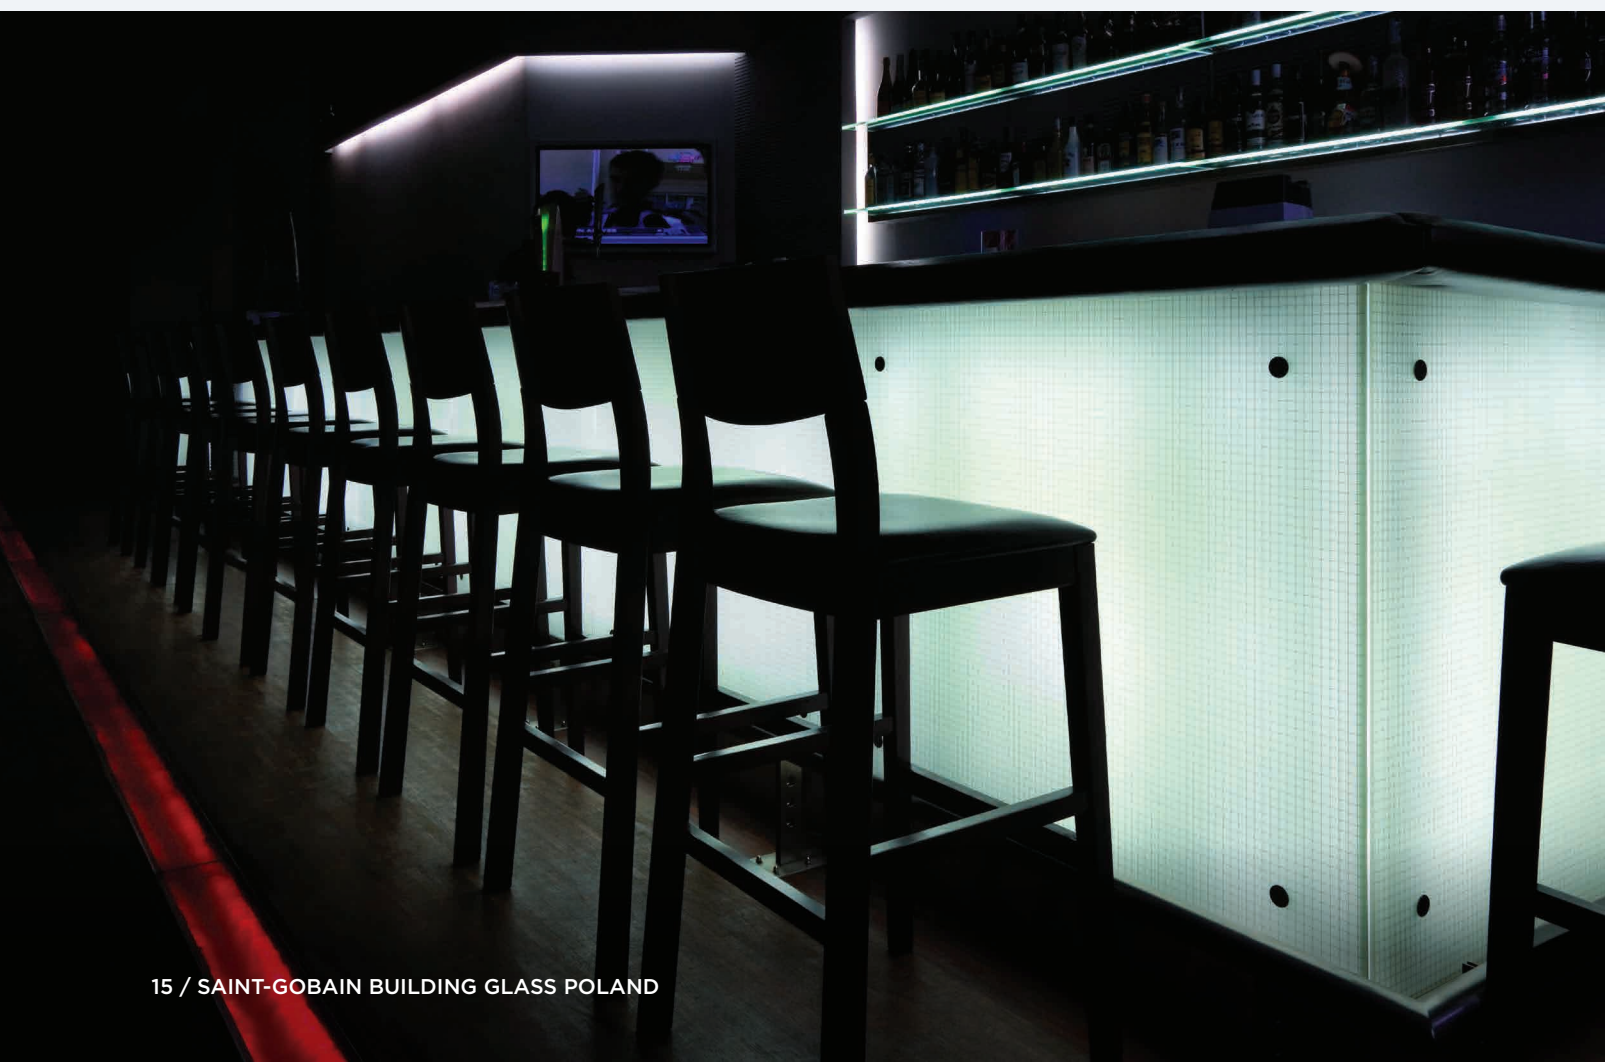

DECORGLASS MASTERGLASS

Application examples

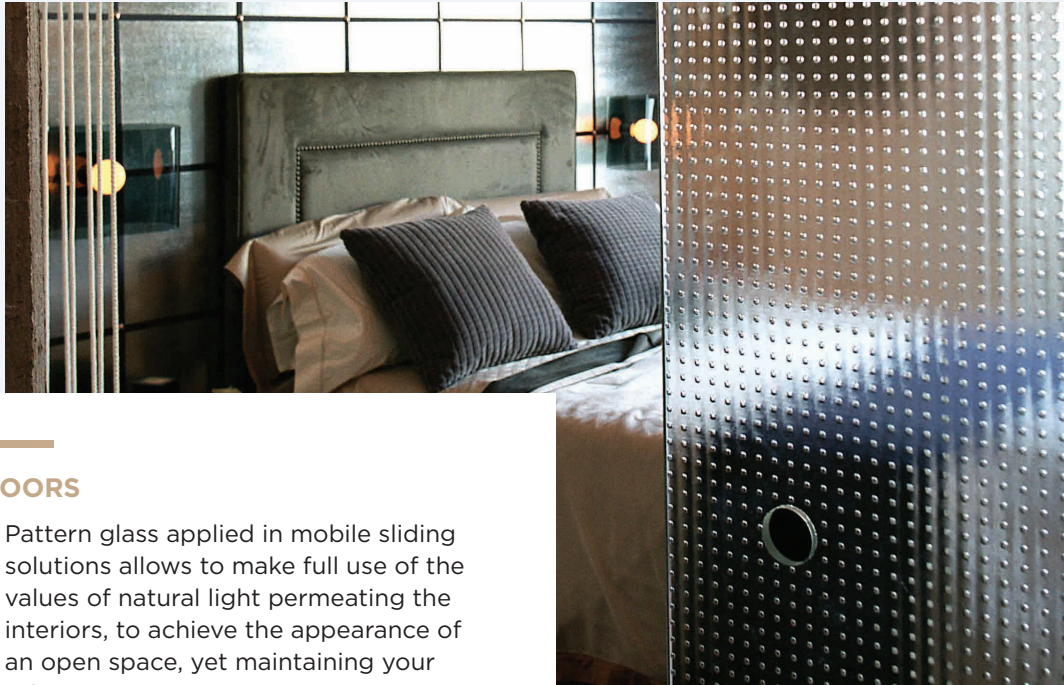

The art of designing architectural interiors comprises interior design and movable fittings taking into account the functions of the space. Well-designed interiors satisfy expectations and tastes of their recipients, their users. Remember - you are to feel as well as possible in the interior you create.

The interior is to define your personality. Compose your interiors making use of our trends. General and interior design are most of all about aesthetics and performance.

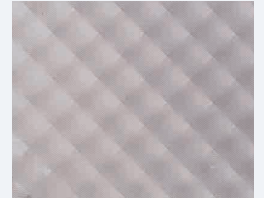

Naturally, interior designs must be consistent with the ergonomics laws; nevertheless, in a good interior design colours, style, the choice of furniture, accessories, and elements creating partitions need to be regarded as equally important.

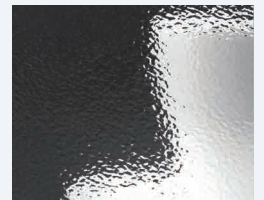

RECOMMENDED PATTERNS:

MASTER LIGNE

MASTER SOFT

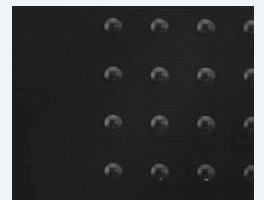

ARENA C

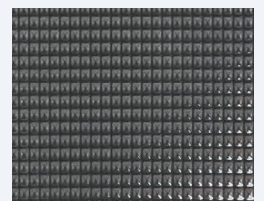

DOORS

Pattern glass applied in mobile sliding solutions allows to make full use of the values of natural light permeating the interiors, to achieve the appearance of an open space, yet maintaining your privacy.

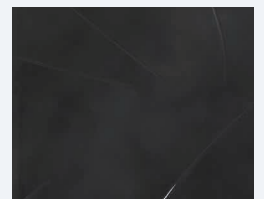

RECOMMENDED PATTERNS:

LISTRAL D

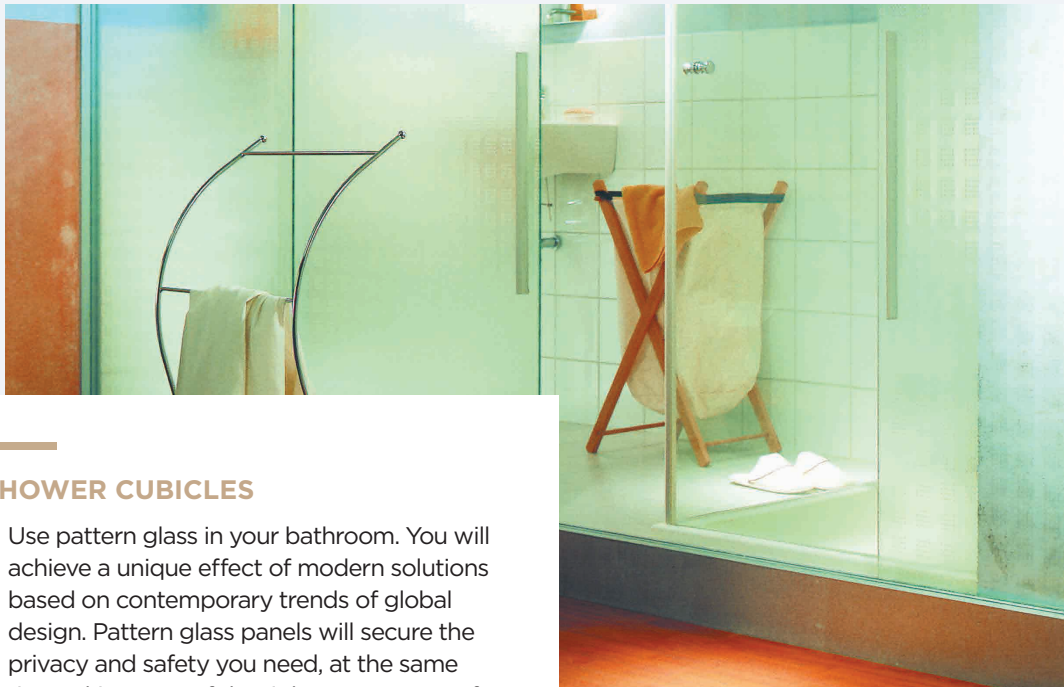

ANTIQUE

FURNITURE

Pattern glass is a material combining durability and reliability with a gentle, timeless design, giving an impression of a soft three-dimensional space. Pattern glass in furniture is not only a high-end decorative element allowing to add some variety to your interiors, it is also a practical solution.

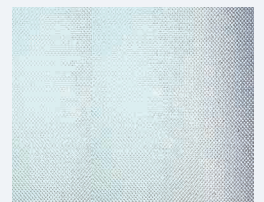

RECOMMENDED PATTERNS:

MASTER LENS

THELA

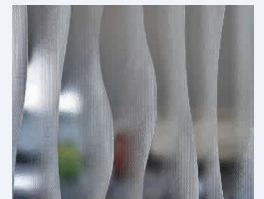

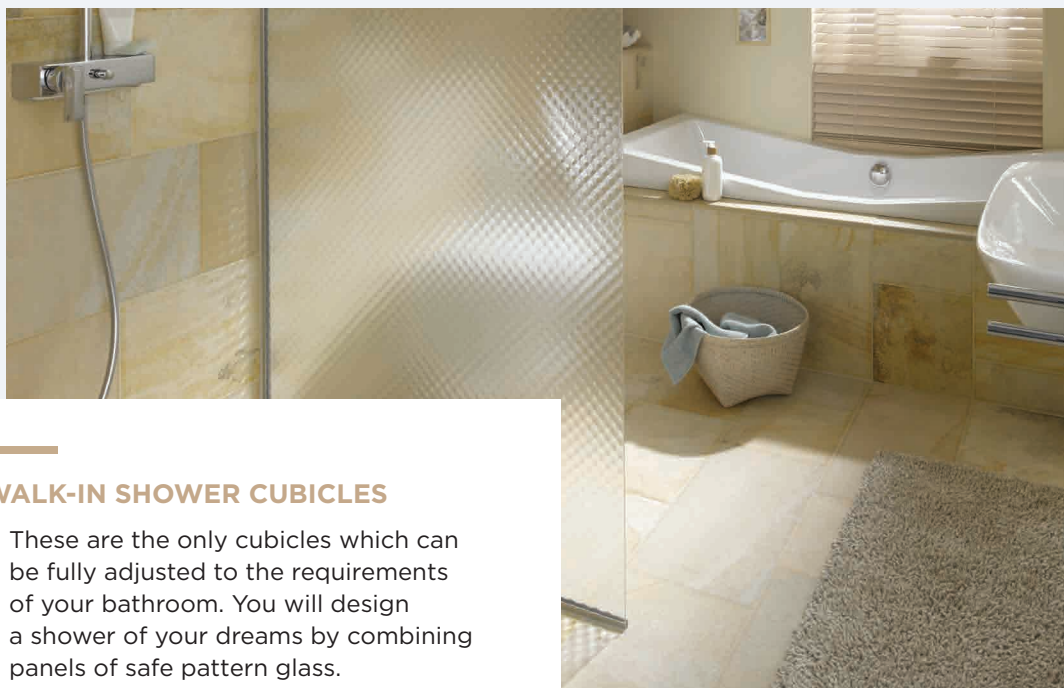

PIXARENA

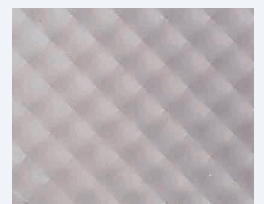

SHOWER CUBICLES

Use pattern glass in your bathroom. You will achieve a unique effect of modern solutions based on contemporary trends of global design. Pattern glass panels will secure the privacy and safety you need, at the same time taking care of the right appearance of your bathroom.

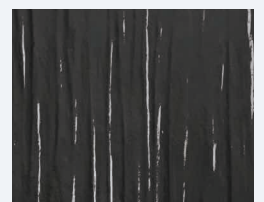

RECOMMENDED PATTERNS:

WAVELINE FLUID

MASTER SOFT

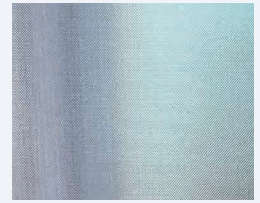

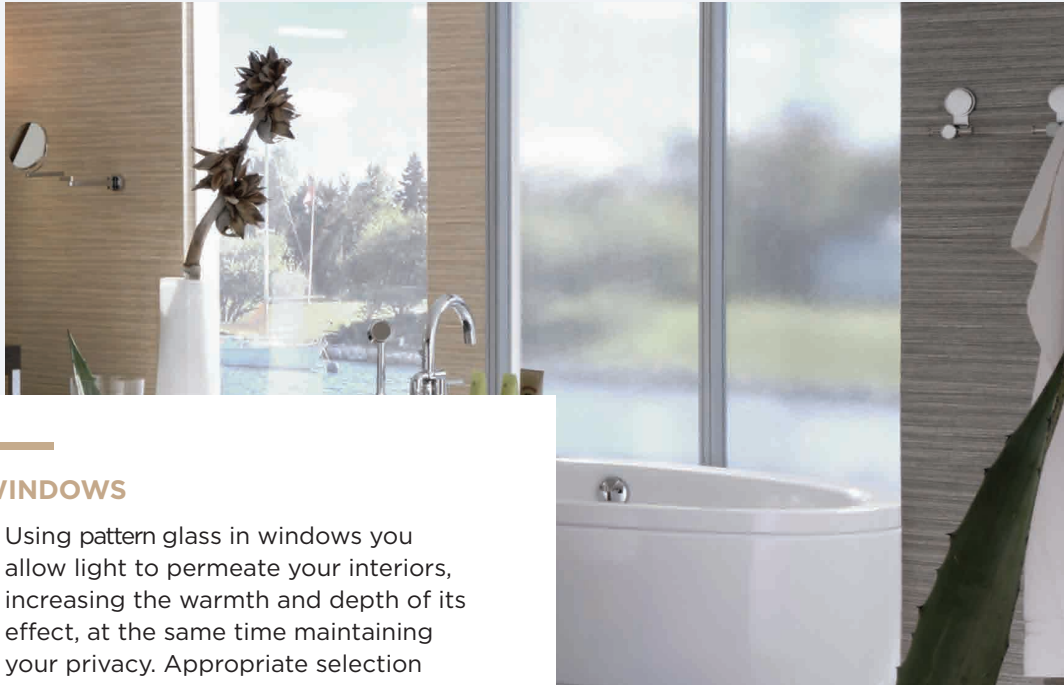

WATERFALL

WALK-IN SHOWER CUBICLES

These are the only cubicles which can be fully adjusted to the requirements of your bathroom. You will design a shower of your dreams by combining panels of safe pattern glass. Appropriately selected glass will not disturb the aesthetics of your bathroom.

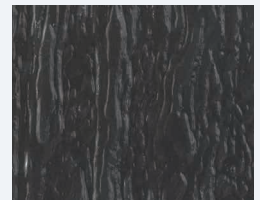

RECOMMENDED PATTERNS:

PIXARENA

VISION

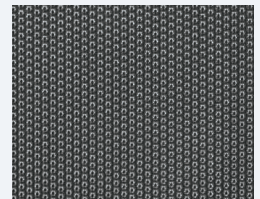

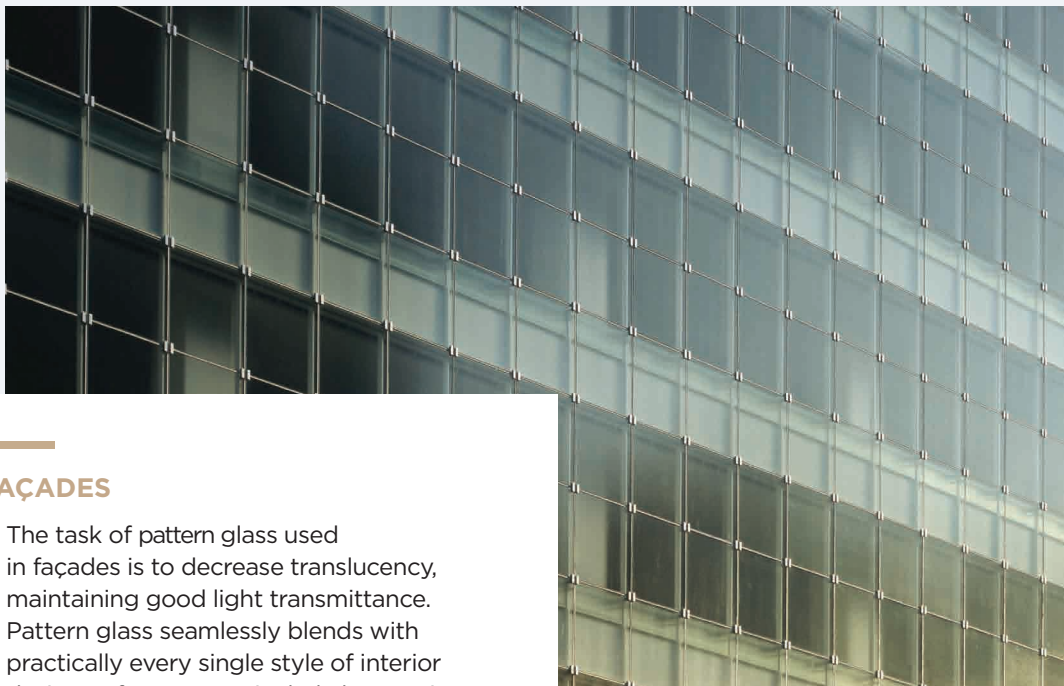

SILVIT

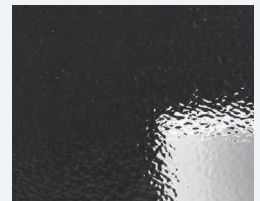

WINDOWS

Using pattern glass in windows you allow light to permeate your interiors, increasing the warmth and depth of its effect, at the same time maintaining your privacy. Appropriate selection of the glass structure offers you a possibility of increasing or decreasing the degree of translucency.

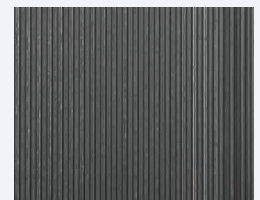

RECOMMENDED PATTERNS:

MASTER POINT

ARENA C

ESTRIADO

FAÇADES

The task of pattern glass used in façades is to decrease translucency, maintaining good light transmittance. Pattern glass seamlessly blends with practically every single style of interior design. It forms a particularly harmonious combination with such materials as steel or wood

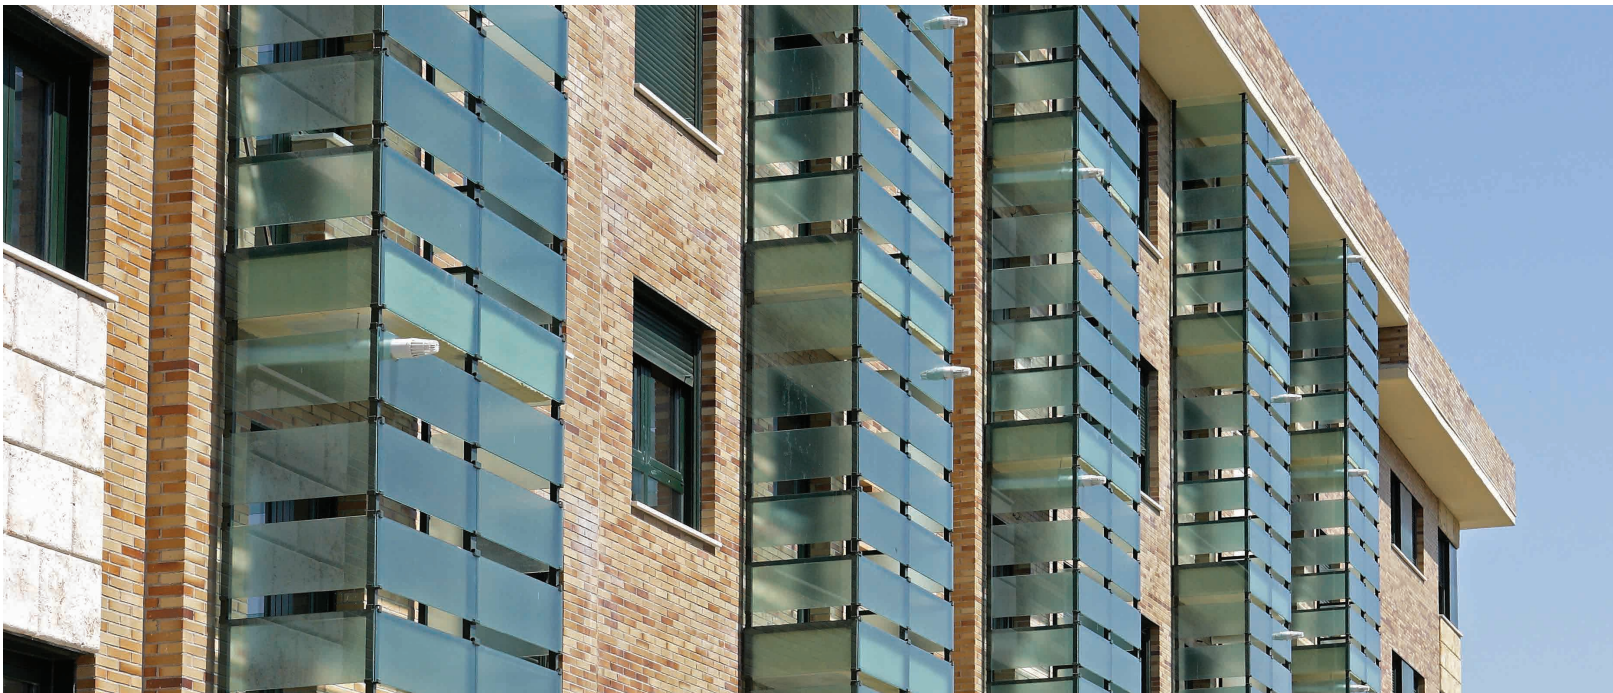

DECORGLASS MASTERGLASS

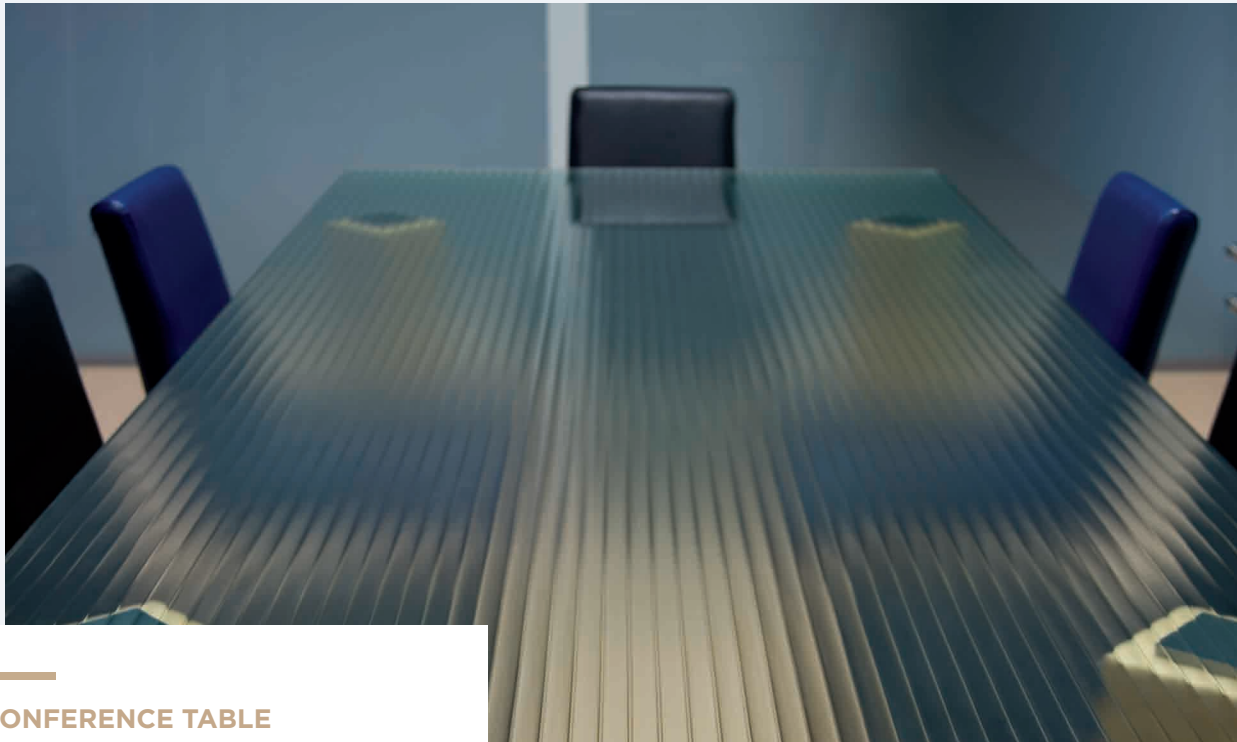

Designs

ABOUT THE PRODUCTS

Pattern glass is a very good solution in many specific application examples: from private solutions in residential homes through applications in business premises, hotels, industrial facilities.

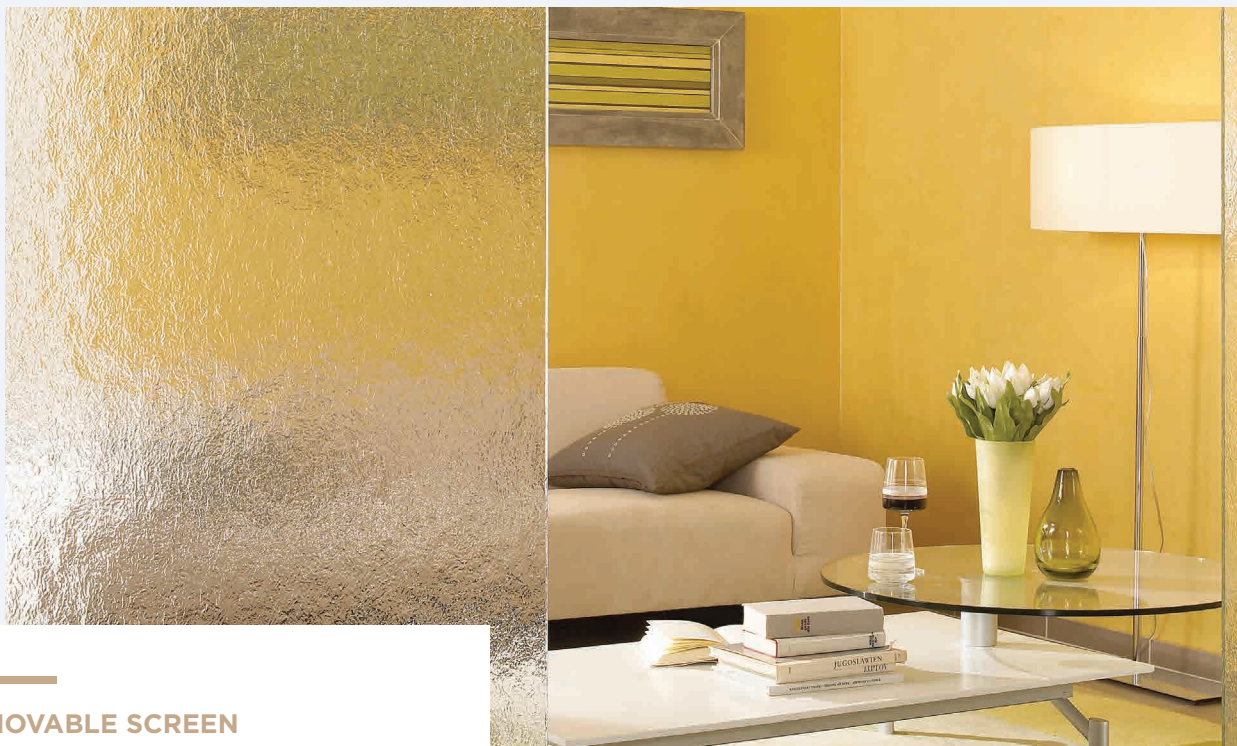

Pattern glass in attractive structures of balustrades becomes a durable architectural element improving residents' comfort and the value of residential homes and public utility buildings.

CONFERENCE TABLE

Give some lightness to your big and heavy conference table in your company.

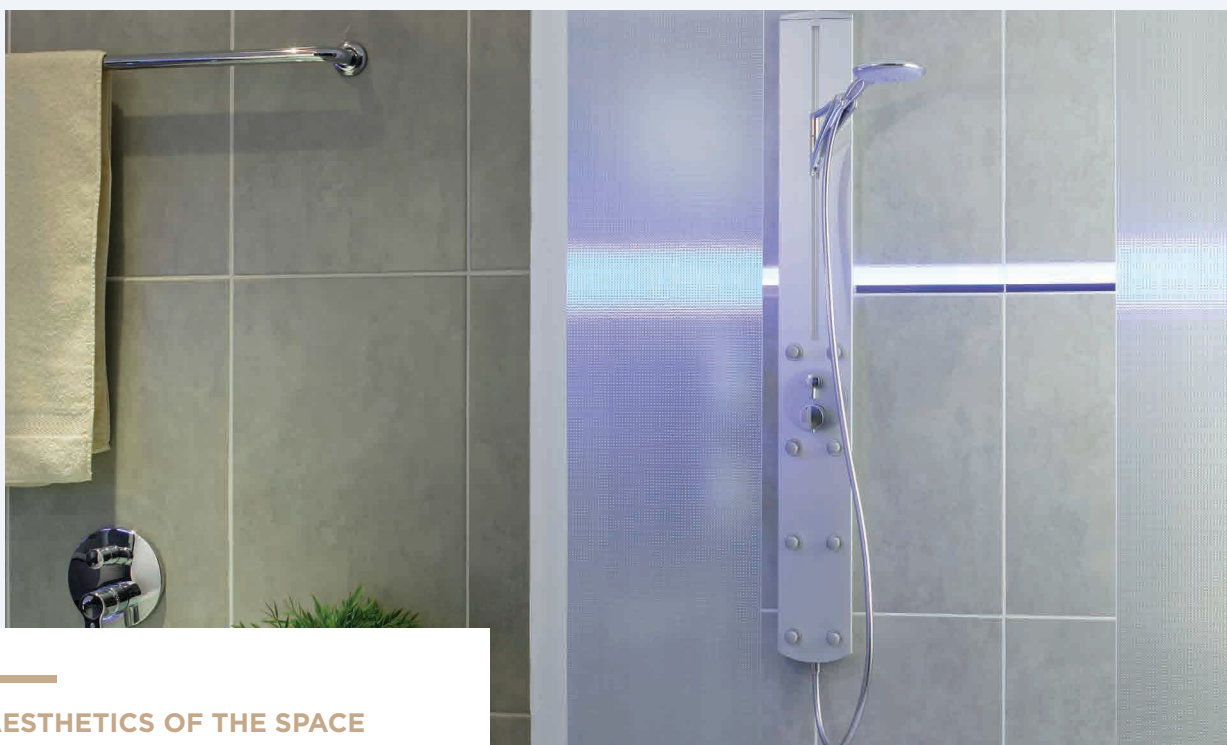

MOVABLE SCREEN

Use pattern glass as an aesthetic movable partition wall.

NATURAL LIGHT

Take advantage of the properties of natural light, maintaining your privacy.

AESTHETICS OF THE SPACE

Safe pattern glass will make your bathroom a truly unique place.

DECORGLASS MASTERGLASS

PROCESSED PRODUCTS

PROCESSED PRODUCTS

Depending on the model, pattern glass can be:

- edge-processed;
- bent;
- laminated and toughened*;
- combined in laminated units for increased acoustic comfort* STADIP SILENCE;
- combined in glazed units for increased thermal comfort.

*The surface covered with the pattern faces outside the unit.
